

Regarding "Telemarketing Laws Under Consideration"

Please believe me that I am very much a First Amendment Advocate, BUT to continue to allow business via Telemarketing is a serious infringement of my peace of mind. Its almost a HUMAN RIGHTS VIOLATION to me. Its so bad, that I consider switching from traditional phone service to a Cell Phone, ONLY for the reason of avoiding Telemarketing Calls. Please enact any legislation which prohibits or impedes Telemarketers from making such calls. Thank you, Donald Voelker
